

Nandana Farm Supplies & Services

Monthly Agricultural Newsletter

Greetings Farmers,

Welcome to this month's update from **Nandana Farm Supplies & Services**. Our goal is to support farmers with crop-specific advisory, quality farm inputs, and practical solutions for better yield and sustainable farming.

■ Crop Advisory – This Month

- Follow recommended sowing schedules for seasonal crops
- Maintain proper spacing for healthy crop growth
- Apply basal nutrients as per crop stage

■ Soil & Nutrient Tip

Conduct soil testing before fertilizer application. Balanced use of organic manures and recommended fertilizers improves soil health and reduces input costs.

■ Pest & Disease Alert

Regular crop monitoring is essential. Adopt Integrated Pest Management (IPM) practices and consult experts before chemical application.

■ Our Services

- Crop-specific packages of practices
- Quality farm supplies
- Expert advisory support throughout the crop cycle
